## [Eton Institute Teams Up With Totalfms in Training Ministry of Education Staff:](#)

**Dubai, 04 July 2010** – Eton Institute, the leading UAE-based language training institute, has teamed up with Totalfms, a facilities management consultancy company based in UAE to provide English language training to the staff at Ministry of Education (MOE) in Dubai. Launched as part of MOE's mission to completely overhaul and improve its operations and management of the UAE's educational facilities, the training will enable its staff members to reach the required proficiency levels in taking the quality of their work to international standards.

Dr. Eli Abi Rached, Director of Eton Institute, commented: "The greatest resource of any organization is its people and developing them through training is possibly the best investment one can make. It has dual benefits of not only boosting overall expertise and levels of service but also enhancing motivation and morale by making an employee feel valued. We would like to commend The Ministry of Education and Totalfms on undertaking this excellent initiative to upgrade the already capable abilities of their department's staff."

The English language training provided by Eton Institute will enable the facilities management personnel at the MOE to reach proficiency levels in English, required to pursue professional training at internationally renowned universities. The unique 80-20 methodology adopted by the Institute, concentrates on teaching the essential 20% of the language, which will allow learners to get up to speed in English in the shortest possible time.

Mr. Asad El-Neil El-Safi, the Director of Totalfms said "As a consultancy, our involvement with the Eton Institute comes as part of Totalfms' on-going efforts to consistently work with the best organizations in their respective fields, to help us fulfil the goals we have set for our clients. In this instance our goal is to help educate those who maintain the educational environment of the UAE's children; equipping The Ministry of Education's Facilities Management Department with the best tools needed to deliver a World Class service."

Eton Institute offers customized solutions for corporates in languages, business skills, computers and teacher training. All training is facilitated by highly qualified and experienced native instructors to meet an organization's specific needs and core learning objectives.
